Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions. Our systems are faster to deploy, generate more power ...

Our line of solar transportable power units (TMSPDC™; Power AnyWhere Any Time™;) provides stand-alone photovoltaic power. These portable units supply AC power just about anywhere the sun shines.

Foldable Photovoltaic Power Generation Cabin is a containerised solar power solution. Combining the features of solar power generation and mobility, it provides electricity all over the world.

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by ...

Foldable Solar Panel Containers are an innovative solution that is combined with solar power technology and logistical convenience. The mobile solar containers carry photovoltaic panels, ...

Whether it's providing people with essential power, clean, safe drinking water, or providing significant environmental benefits, including removal of oil contaminants using non-caustic solutions, our solar ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

Pure Aqua produces an assortment of containerized and mobile water treatment solutions that are custom-built to fit any application.

150-foot photovoltaic folding container for water treatment plant

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...
