In 2025 numerous countries--such as the United States, Canada, and Germany--installed new national leaders, and some transitions were contentious. Several African ...

Here, we outline an optimized, phased pathway for integrating solar and wind energy into a globally interconnected and fully coordinated power system.

Donald Trump was inaugurated as the 47th President of the United States, becoming just the second person ever elected to non-consecutive terms. The Philadelphia Eagles won Super ...

Research conducted in the Northwest Pacific region demonstrates that wind-solar complementary utilization can effectively reduce power output fluctuations, bringing the frequency of ...

HJ-SG Solar Container provides reliable off-grid power for remote telecom base stations with solar, battery storage and backup diesel in one plug-and-play solution.

From battlefronts in Ukraine to the destruction in Gaza, 2025 was marked by conflict, political upheaval and extreme weather across the globe. The year saw Trump's meetings on the world stage, the ...

In order to improve the utilization efficiency of wind and photovoltaic energy resources, this paper designs a set of wind and solar complementary power generation ...

The wind-solar-diesel hybrid power supply system of the communication base station is composed of a wind turbine, a solar cell module, an integrated controller for hybrid energy ...

2025 was a year marked by major events, including Trump's return, the first American pope, climate crises, AI advancements, and inspiring global efforts.

2025 solar-powered communication cabinet wind and solar complementarity

United States 2025 calendar online and printable for year 2025 with holidays, observances and full moons

She also became the first Black woman to win country album of the year. Beyoncé appears at the 67th annual Grammy Awards on February 2, 2025 in Los Angeles California.

The invention relates to a wind and solar hybrid generation system for a communication base station based on dual direct-current bus control, comprising photovoltaic arrays, a wind-power ...
