Explore our range of lithium-ion cabinets, meticulously engineered with cutting-edge fireproof battery storage technology, ensuring a secure and reliable solution for energy storage.

With optional customization available, we're ready to meet even the most demanding charging environments. Battery charging carries inherent risks. Securall cabinets are built to minimize fire ...

Battery cabinets improve the safety and reliability of energy storage by incorporating features such as fire suppression options, spill containment, thermal management, and tamper resistance.

Our main products include low voltage and high voltage battery packs, on and off grid hybrid inverters for households, commercial and industrial applications. We also have the all-in-one hybrid generator ...

Lithium cabinets play a critical role in safe lithium-ion battery storage and charging. Learn how battery cabinets reduce fire risks, manage thermal runaway, and support compliance.

Our new Solition Data Center energy storage system boasts intelligent features, which culminate in safety and reliability, longevity, space savings and easy-to-manage maintenance.

CellBlock battery cabinets, cases and charging racks are a superior solution for the safe handling of lithium-ion batteries and devices containing them. Our practical, durable solutions use CellBlockEX ...

Discover our state-of-the-art lithium ion battery storage cabinets featuring advanced safety systems, intelligent battery management, and modular design for optimal energy storage solutions in industrial ...

With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

690V Lithium Battery Cabinet for Hospitals

We partner with commercial energy users in the medical market to maximize reliability, achieve long-term cost predictability and enable preparedness and energy security.
