Why is Buenos Aires investing \$540 million in energy storage?

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for Argentina - and potentially, a blueprint for the entire region. What role will energy storage play in your country's energy transition?

Is Buenos Aires a good place to buy a battery?

Buenos Aires, with its dense urban load and aging infrastructure, is an ideal candidate for such an upgrade. Moreover, this tender arrives at a time when battery prices are becoming increasingly competitive, and international developers are actively seeking new markets with clear regulatory frameworks and stable revenue models.

What is the Buenos Aires grid program?

Intended to strengthen the grid in the greater Buenos Aires region, the program has attracted a lot of attention; it has been subscribed to projects that are about twice the desired capacity.

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an ...

Summary: Buenos Aires has launched an ambitious energy storage policy to modernize its grid and integrate renewable energy. This article explores the policy's framework, its impact on industries like ...

Argentina's Energy Secretariat has issued a pivotal international call for proposals aimed at integrating 500 megawatts (MW) of battery energy storage systems (BESS) within the ...

Argentina's Energy Secretariat, part of the Ministry of Economy, has initiated an auction to secure 500 MW of battery energy storage capacity in the Metropolitan Area of Buenos Aires (AMBA).

The Government awarded the contracts for the "Alma-GBA" bidding process, aimed at incorporating electric energy storage systems in the Buenos Aires Metropolitan Area (AMBA), where ...
