A major hybrid solar and battery storage project in Chile secured \$475 million in financing, marking a critical shift in how large industrial users source power.

AES Andes, part of the US-based energy giant AES, has launched construction on two hybrid renewables-plus-storage projects in Chile with 2.2GWh of co-located BESS. Located in the ...

The Spanish multinational GES, part of CL Grupo Industrial, has confirmed the construction of a hybrid project that will combine solar energy photovoltaic, wind and battery storage. ...

In 2025, Chile's energy sector saw a surge of green Power Purchase Agreements (PPAs) and associated investments, signalling a maturation of its renewable energy market. These ...

Chile has emerged as a world leader in hybrid systems and standalone energy storage since implementing its Renewable Energy Storage and Electromobility Act in 2022.

The hybrid project will combine 84 MWp of solar photovoltaics (PV) with a 90 MW BESS, representing an estimated total investment of around US\$150 million. Located in the Casablanca ...

Grenergy Renovables, an independent renewable energy company based in Spain, is delivering the world's largest hybrid solar and battery storage project, Oasis de Atacama, in northern ...

Latin America's ambitions for large-scale energy storage are moving from concept to construction with Zelestra's Aurora project, a 1 GWh hybrid solar-plus-storage plant now underway in ...

November 24, 2025 - Enel Chile, through its subsidiary Enel Green Power Chile, has initiated construction of the Las Salinas battery energy storage system (BESS), part of an industrial-scale ...

Spanish renewables company Grenergy Renovables SA (BME:GRE) has filed an environmental impact

Chile hybrid energy storage project

statement (EIS) for a proposed 467.5-MW solar farm paired with a 430-MW ...
