At MODS, we design and fabricate high-performance generator and power units built from shipping containers. Our solutions provide reliable energy generation and storage for industries, construction ...

Imagine delivering a fully operational power plant in a shipping container. That's the reality of container transformation power plant equipment - turnkey energy solutions combining portability with industrial ...

In 2018, Geppert set a visionary, ecological milestone in the field of small-scale hydropower: the introduction of a container power plant as a power plant solution. Simple, stand-alone and cost ...

That's exactly what container energy storage battery power stations are achieving today. These modular systems are revolutionizing how we store and distribute renewable energy, offering ...

The containerized format provides a complete, self-contained power plant that deploys quickly, operates autonomously, and withstands harsh environments including extreme cold down to -40°C.

Containerized energy storage provides a stable power supply, ensuring the smooth operation of critical processes and preventing disruptions that can be costly for businesses.

To learn more about our lines of generators, engines and other compliant power solutions, fill out the form below and download our Tier 4 Final product catalog.

We can meet the needs of our customers and provide a containerised modular power plant solution that can accommodate both internal (within an existing building) and external installations.

Since 2002 USP& E has assisted clients with over 150 feasibility studies, supplied over 1200 generators, designed, built, installed, and commissioned over 30 major power stations, supplied over 1.8 million ...

Here are a few clever modified container energy storage solutions we're keeping our eyes on, as well as a few

Container-built power plants

we've already built out for our customers in the energy industry.
