What are network cabinets?

With features such as rack shelves, hardware, and cable management panels, these products help keep your network infrastructure accessible and organized. Our network cabinets provide secure storage for critical equipment, with options for both wall-mounted and floor-standing solutions.

What is a network rack & cabinet?

Network Racks and Cabinets are essential for any network. Cabinets are used for storing routers, patch panels, switches and a wide variety of networking equipment and accessories. Network cabinets support large, modular network switches by providing additional space for cable management and side-to-side airflow solutions.

What is a wall mount network cabinet?

Wall mount network cabinets are ideal for smaller IT setups or environments where space is at a premium. These cabinets offer a secure storage solution for network equipment while keeping everything compact and organized.
