We are very excited to be commissioning our first full scale Concentrated Solar Multi Effect Distillation and Dewatering Systems (CSMED)

The SmartFlower solar device is an advanced photovoltaic system that tracks the sun, generating up to 40% more energy than traditional solar panels. Its return to service will help reduce...

the CSMED is expected to be free of all dissolved salts. Thus, to eliminate the need for remineralisation and to increase the treatment capacity, a bypass line with possible chemical amendment is ...

Abstract: This study evaluates the feasibility of an emerging technology - a concentrated solar multi-effect distiller (CSMED) - to supply high quality water for beneficial use at Eromanga, which is ...

Explore the 3D world of the Solar System. Learn about past and future missions.

Project Type: Commercial and Industrial rooftop PV system; Total Capacity: 4MW
