Where are data center custom server cabinets made?

AMCO Enclosures offers data center custom server cabinets, cases, cages, cable management, and PowerWhips products. All our custom data center network racks and server racks are manufactured right here in the USA at our facility in Des Plaines, IL. This includes data center custom server cabinets, cases, cages, cable management, and PowerWhips products.

Are network cabinets compatible with server cabinets?

Our network cabinets seamlessly interface with server cabinets, creating a cohesive infrastructure that simplifies power distribution and monitoring. Compatibility with standard 19-inch rack units ensures that server rack cabinets and network racks can be installed side-by-side.

What is a CPI network cabinet?

CPI's network cabinets provide a robust foundation for any data center, delivering secure enclosure and organized cable pathways. Engineered with precision, each cabinet supports high-density equipment while maintaining accessibility for maintenance. The design aligns with industry standards to ensure compatibility across a wide range of devices.

Why should you choose a telecommunication cabinet?

Our telecom cabinets are built to withstand the toughest conditions, ensuring your equipment stays safe and secure. Designed with user convenience in mind, our cabinets provide easy access to all your telecom equipment for quick maintenance. Choose from a variety of sizes and configurations to meet your specific telecommunication needs.
