In 2021, Lebanon announced a plan to re-route its natural gas imports through Jordan to produce electricity for the Lebanese grid via Syria. However, the implementation of this plan has...

Officials stress that resolving the electricity crisis requires sustainable, politically neutral solutions. After four decades of partial darkness and the dominance of private generator cartels, ...

Both times, the state failed in its most basic mission: to provide electricity. Unable to unlock the necessary funds to import fuel for EDL, the government let the turbines of power plants fall silent - a ...

A clear overview of Lebanon's power system, the roles of public utilities and private generation, and the path toward reliable energy

According to the world bank, 100% of Lebanese people have access to electricity (World Bank, 2023). What does "access" really mean -- do a few hours of power for the poor count as ...

Some hope to revive the existing system, built around a centralized and fossil-fueled grid run by the parastatal Electricité du Liban (EDL), with natural gas imported from Egypt or the Mediterranean. ...

Fuel BaronsThe Generator MafiaElectrical SecessionismWhat Comes Next?Any effort to ensure universal access to electricity in Lebanon will have to contend with the interest groups that have formed in its prolonged absence. Century International will be mapping these emerging groups and their role in Lebanon's rapidly transforming political economy, with a view to assisting those interested in building an equitable gr...See more on tcf .b_imgcap_alttitle p strong,.b_imgcap_alttitle .b_factrow strong{color:#767676}#b_results .b_imgcap_alttitle{line-height:22px}.b_imgcap_alttitle{display:flex;flex-direction:row-reverse;gap:var(--mai-s mtc-padding-card-default)}.b_imgcap_alttitle .b_imgcap_img{flex-shrink:0;display:flex;flex-direction:column}.b_imgcap_alttitle
