Is the Emporia level 2 charger a good EV charger?

The Emporia charger has all the meat-and-potatoes specs you'd want to see in a Level 2 charger. It's quick enough to fully recharge almost any EV in a matter of hours (and certainly overnight), and it has all the relevant safety certifications. It's available with both Tesla and J-1772 connectors. It's all very, very solid stuff for the price.

How much does Emporia EV charging cost?

The Emporia EV Charging Station costs \$399. Emporia's Level 2 EV charger provides home EV charging and optional integration with home energy management and solar. You may be able to save money by scheduling your EV charging at home with your Emporia app or web portal if you have time-of-use rates. Looking to power your EV on sunshine at home?

How many amps can an Emporia level 2 charge?

Using the Emporia mobile app, the user can configure the unit to operate anywhere between 15 and 48 amps. This is particularly useful for users with older and less sophisticated home wiring. The Emporia Level 2 charger may be found online in two variants; a UL Listed version and Non-UL.
