Which energy storage systems are eligible for the first round?

Eligibility and Bid Requirements Eligible Projects: Only transmission-connected mid-duration energy storage systems are eligible in this first round. Projects must be between 40 MW and 1,000 MW in size. Projects must commence commercial operation by January 1, 2030.

Should bulk energy storage be added to New York's grid?

Adding bulk energy storage to New York's grid will lower costs, optimize the generation and transmission of power, enhance energy grid infrastructure, and ensure the reliability and resilience of the State's electricity system.

What is NYSERDA's bulk energy storage program?

NYSERDA's Bulk Energy Storage Program employs a novel Index Storage Credit (ISC) incentive, as established in the New York Public Service Commission (PSC) Order, modeled in part after the Renewable Energy Certificate (REC) and Offshore Wind Renewable Energy Credit (OREC) utilized in other NYSERDA programs.

Are energy storage projects required to meet new fire safety codes?

Any NYSERDA-supported energy storage projects are contractually required to meet the new storage safety codes adopted last week into Uniform Code by the State Fire Prevention and Building Code Council, which reflect the work and recommendations from the New York State Inter-Agency Fire Safety Working Group (FSWG).
