Why do companies bid for energy storage tenders?

Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of contracts worth millions for procurement of energy storage. Global Tenders stands out as the largest platform dedicated to tenders and government contracts.

What is the funding and tenders portal?

The Funding and Tenders Portal is the single entry point (the Single Electronic Data Interchange Area) for applicants, contractors and experts in funding programmes and procurements managed by the European Commission.

What is the European energy storage inventory?

In March 2025, the Commission launched the European Energy Storage Inventory, a real-time dashboard that displays energy storage levels across different European countries. It is the first European-level tool of its kind and offers energy storage data across a full range of technologies.

How does energy storage work in the EU?

The main energy storage method in the EU is by far 'pumped storage hydropower', which works by pumping water into reservoirs when there is an electricity surplus in the grid - for example on a sunny or windy day - and releasing it when more energy is needed.

In March 2025, the Commission launched the European Energy Storage Inventory, a real-time dashboard that displays energy storage levels across different European countries. It is the ...
