Ten months into Donald Trump's second term, communities across the US are scrambling to keep clean energy projects alive as federal support dries up. Each month, Anh Nguyen ...

New wind and solar power installations, and the cheap, clean energy they provide to America, may not survive the Trump administration.

More than 20 states sued the EPA on Thursday, challenging its cancelation of a \$7 billion program that aimed to make solar power accessible to low-income households.

President Donald Trump has launched an unprecedented attack on wind and solar power as he seeks to reshape the US energy landscape and reverse the green agenda put forward by his ...

In one of his final budgets, President Jimmy Carter proposed funding to help America get 20 percent of its energy from the sun by 2000. But then his successor Ronald Reagan shut down that ...

At a time when families are facing rising electricity bills, the Environmental Protection Agency (EPA) is moving to dismantle Solar for All--a landmark program designed to make clean ...

Between the upending of tax policy, new punitive, anti-solar regulation, and an unabashed pro-fossil fuels agenda, this administration is creating instability that is scaring off ...

No energy source has ever grown at anything like this pace. When we talk about solar at all, it's usually as a way -- really, the only scalable way -- to slow down the climate crisis.

Opposition outreach materials often blame "big tech" green tag buyers and server farms for driving solar demand on power markets. This promotes a distorted picture of the nation's overall ...

Fighting nation s own solar power generation

Despite the Trump administration"s wide-ranging attacks on ...

Despite the Trump administration"s wide-ranging attacks on renewables like wind and solar power, the clean-energy industry is on pace for record growth this year, according to ...
