The City of Windhoek's 25-megawatt solar power project is at an advanced stage, with recommendations soon to be submitted to the Public-Private Partnership (PPP) board for consideration.

According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the announced stage. It will be developed in a single phase.

From solar home systems in Katutura to industrial-scale farms, the city proves deserts can fuel revolutions. Next time you hear "renewable energy," picture Namibia--where sunshine powers ...

The 25MW Solar PV project has several benefits for the city. It will diversify the electricity supply and reduce the dependence on NamPower, the national electricity supplier.

Windhoek, Khomas, Namibia is a good location for generating solar power year-round due to its tropical climate. This means that the sun shines consistently throughout most of the year.

Windhoek (O& L Nexentury) solar farm is a solar photovoltaic (PV) farm under construction in Windhoek, Namibia.

The 1.6MW rooftop solar plant at Maerua Mall generates clean energy to power retail and operational activities, reducing electricity costs and the mall's carbon footprint.

By combining solar technology with capacity building, this initiative supports education, community resilience, and sustainable energy solutions. This project is a testament to how renewable energy ...

Windhoek solar farm by Jacques | Jul 1, 2025 A solar renewable energy project with a capacity of 25 MW. Located in Windhoek, Khomas Region, Namibia. Current status: announced.
