We've heard from drivers and charging networks who wanted us to make paying for charging as easy as we've made finding a place to charge. We ...

If you have a PlugShare account, you have access to use Pay with PlugShare (PWPS). We work with charging networks to simplify the use of paid ...

Curious if anyone uses Plugshare at paid charging stations? I have a Chargepoint account but it's annoying that they charged me \$25 so I could use \$1.50 of charging and have a \$23.50 balance that ...

Plugshare is the universal charger app, and it shows which network owns each charger. Do some poking around on it to see what chargers you may need to use. For the routes I travel near ...

EVgo wants to use our Pay With PlugShare platform to make paying for charging easier (and is inviting other networks to do the same). Also, we've got deep expertise in creating digital ...

ChargePoint is a particular charging network. Plugshare is a mapping app for finding charging stations of any network and type. Use PlugShare to find stations of interest. If they happen ...

Say they are a stranger, and offer to pay, would you let them charge at your house? What would be your constraints/limits if you do allow? So this happened to me, but just curious! Share Add a Comment ...

Hello everyone! I recently joined the Mach-E club and I was told a few of the apps for charging: electrify America, evgo, PlugShare, a better route planner, ChargePoint, 7charge, Volta, EV connect, Tesla ...

Here's our quick-start guide to using Pay with PlugShare! Please remember that Pay with PlugShare (PWPS) is only available for EVgo locations ...

Really not hard. It seems daunting but it's all good. Just create a folder. Move ev charging apps into it. While

How to pay with plugshare

you're at it download PlugShare and ABRP. If you check which routes you regularly use then ...

PlugShare allows you to pay for charging on several different networks, so it's worth having it on your phone. In California, Chargepoint and EVgo are the most common.
