What is a rack mount power supply?

Our rack mount power supplies deliver reliable, programmable DC power in a compact form factor that fits directly into standard 19" racks--making them ideal for ATE systems, production lines, and high-density test environments.

What are TDK-Lambda rack mount power supplies?

These are versatile power solutions that can be mounted on 19" rack systems and comes with an array of features including built in ORing and hot swap, PMBus(TM) and LAN options for communications and control. TDK-Lambda is a global supplier of rack mount and hot swap AC-DC power supplies in a broad range of power levels to fit many applications.

Are Tektronix rack-mounted power supplies safe?

Tektronix rack-mounted power supplies aren't just high-performance--they're engineered for safety, automation, and system compliance right out of the box.

Are EA rack power systems safe?

Every EA rack power system includes an integrated safety system designed for high-risk environments. Designed to drop straight into automated workflows without rewiring or rewriting control logic. Avoid surprises during safety audits or system validation with out-of-the-box compliance features.
