Jason Kuflik is Chief Executive Officer (CEO) and a founding member of GS Power Partners. With more than 15 years in financial management, commercial development, and operations, Jason is a ...

At Jason Solar, we understand the importance of building a greener future for businesses. We provide the technology and expertise to transition your operations to clean, renewable energy.

Our systems harness solar energy directly, using water storage tanks instead of batteries for non-sunlight hours. This reduces battery investment, simplifies the system, and lowers maintenance needs.

We develop innovative, solar-powered water solutions that operate off-grid, eliminating the need for costly battery storage. Our technology lowers costs, increases reliability, and promotes sustainability.

We are committed to providing the highest level of service to our clients - We've built our reputation on it, and it's what has made us a leader in solar power in New Mexico.

Distributed Commercial Solutions Household PV Solutions Carbon Free Power Plant BESS Solutions Global Project References Sustainability Upholding Our Purpose Fulfilling Our Commitments ...

Follow these 7 crucial steps to ensure long-lasting performance and reliable power for your off-grid project. From calculating the load to sizing up the battery assembly, we've got you covered.

- ?? Welcoming JASON"Solar Water to the show floor! Their patented solar-powered water solutions are making a huge impact, bringing affordable, clean water and renewable energy to remote and ...

The innovative solar-powered water filtration systems operating off-grid, requiring no extra expensive batteries. The most easiest solution for island, over 80% saving!

We specialize in battery-free and AI-Ready technology that converts seawater into clean potable water. By

Jason Solar Power Generation

eliminating the need for costly battery storage, our smart desalination unit reduces OPEX, ...
