Does Vivint Solar offer a smart home system?

The main solar service from Vivint includes an entire smart home system, truly setting it apart from the rest of the competitors on the market. The Vivint Solar customer gets much more than a few panels installed on their roof.

Who is Vivint Solar?

No current offers available. Vivint Solar has been in the industry for more than ten years. This company started after a home automation and security company decided that solar energy was the wave of the future and something necessary for their survival in the industry.

How much does a Vivint Solar System cost?

These numbers are based on average system sizes and installation costs for the solar panel brands Vivint carries. These prices fall below the industry average of \$20,979 for a similarly-sized system, meaning Vivint is below average when it comes to cost.

Does Vivint offer a solar lease?

One of the upsides of Vivint and its parent company, SunRun, is that they make solar super accessible to a wide range of customers. Although the solar leases they push on customers aren't as beneficial as other options, they require no down payment and often no credit check and they provide instant energy savings in most cases.
