Is Solaric a good choice in the Philippines?

To date Solaric is found in more than half of the Philippines homes and businesses with Net Metering and by far the solid consumer choice for rooftop solar, with thousands of installed systems and dozens of systems energized each week we are on the mission to turn on the sun for everyone.

Are solar panels generating value if businesses close for holidays?

Overview Solar panels continue generating value even when businesses close for holidays. They produce power automatically, export excess energy as bill credits, store surplus electricity, and balance grid use.

Why are Seavan containers so expensive?

Seavan container pricing is also very sensitive to macroeconomic factors. There is usually an excess of containers during economic downturns, which causes costs to drop. But when economies are doing well, trade activity rises, and prices follow suit as a result of increasing demand.

The Philippines is home to the world's largest solar installation, completing in early 2026, with 3.5 GW of solar panels and 4 GWh of battery storage. And there's more on the way!
