What is the full form of NASDAQ?

The full form of NASDAQ is the National Association of Securities Dealers Automated Quotation. The NASDAQ is the electronic marketplace at the global level for the buying and selling of securities through the automated network founded by NASD, i.e., the National Association of Securities Dealers (NASD) in 1971.

When was the NASDAQ founded?

The National Association of Securities Dealers founded the NASDAQ in 1971 in New York City. The principal idea behind its founding was to be the world's first electronically-run stock market. While it initially didn't allow trading to be executed electronically, it did provide automated stock quotes.

What is the NASDAQ stock market?

The Nasdaq Stock Market is the second-largest stock exchange in the world, and it plays a vital role in incorporating technology into the trading process. The Nasdaq provides an alternative to the New York Stock Exchange for companies that want to list their stocks on a U.S.-based stock exchange.

Who owns Nasdaq Stock Exchange?

The exchange platform is owned by Nasdaq, Inc., which also owns the Nasdaq Nordic stock market network and several U.S.-based stock and options exchanges. The exchange is the primary listing for many technology companies and also trades stock in many foreign firms, with China and Israel being the largest foreign sources.

The name Nasdaq is an acronym for National Association of Securities Dealers Automated Quotations, a nod to the system's original purpose--replacing phone calls with computerized price quotes.
