How much solar power will Delhi have by 2027?

The Delhi government has announced plans to install 4,500 MW of solar capacity, including 750 MW of rooftop solar within the state and around 3,750 MW of utility-scale solar outside the state by 2027 under the new Solar Energy Policy 2023.

What is solar energy policy in Delhi?

This policy will apply to any solar energy generating system with a capacity of 1 kWp or more. It applies to all electricity consumers and entities that set up or operate solar power projects in Delhi.

Will Delhi become a solar hub?

This simplification allows dual-use of land for farming and renewable energy generation, aligning with national Net Zero goals and promoting Delhi as a solar hub. Delhi has removed the 'Change in Land Use' requirement for elevated solar systems on agricultural land, a move expected to boost farmers' income.

Are rooftop solar systems required in Delhi?

According to the amendment to the Unified Building Bye Laws for Delhi, 2016, dated March 8, 2019, all new residential, institutional, government, commercial, group housing, and industrial buildings must install rooftop solar systems, subject to meeting the minimum area requirement.
