What is a SmartTrack® 47U server rack?

This SmartTrack® 47U server rack is designed for network wiring closets, retail locations, classrooms, back offices and other areas with essential rack-mount IT equipment. It is 800 millimeters wide to allow more room for cable management and PDU mounting along the sides of the rack, which permits free front-to-rear airflow.

What is a network rack cabinet?

Network cabinets are an ideal storage solution for data centers and telecommunications rooms, specifically engineered to house IT equipment and high density network cables and connectivity. The network rack cabinet provides the flexibility for customers who know exactly what they require of their server rack.

How does a colocation rack work in a data center?

This colocation rack efficiently utilizes the floor space in the data center by minimizing the amount of unused space in the secure IT cabinet. The quality of manufacturing in this server colocation will instill confidence in the tenant that their physical infrastructure is protected from unauthorized access.
