This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.

Three packaging methods for PV modules: a) Landscape vertical packaging is recognized as optimal; b) Horizontal stacking has been eliminated; c) Portrait vertical packaging is applied for larger PV modules.

In order to prevent the safety of placing and unpacking modules affected by tilt and uneven ground, please choose flat ground when unloading.

Canadian Solar is committed to provide high quality and high performance solar modules to assist your PV business growth. This document provides unpacking instructions to our packaging solution for ...

To ensure the safety of unloading of PV modules, please read this manual carefully. In the process of unloading, the forklift should be selected reasonably according to the size and weight of the goods.

This category features our selection of ready-to-use photovoltaic pv solar panel mounting systems including roof tilt mount, ground mount, pole mount, and Unirac systems.

To prevent the panels from falling while removing them from the pallet, move the whole pallet next to a wall or other firm support structure, as shown below. Cut off all remaining straps and remove any ...

Instructions for unpacking our upright packaging solution for solar modules are provided in this web page. Our vertical packaging solution ensures safe transportation and easy handling of ...

As the photovoltaic (PV) industry continues to evolve, advancements in Photovoltaic panel unpacking anti-fall bracket have become critical to optimizing the utilization of renewable energy sources.

Photovoltaic panel unpacking anti-fall bracket

To ensure the safety of loading, unloading, unpacking, and storage of PV modules, please read this manual carefully. When you need to unpack and install the modules, you can search and download ...
