Whether it's for a spandrel condition or a vision panel, Onyx Solar's PV glass can be tailored to offer a diverse range of VLT levels, ranging from 0% or fully opaque to up to 75% VLT. The greater the ...

Customize your photovoltaic glass with Onyx Solar. Choose from a wide range of colors, sizes, transparency levels, and shapes to meet your aesthetic and energy needs.

These tiles are made with small solar panels with photovoltaic cells that absorb sunlight as conventional panels. This energy output is converted into DC (Direct Current) form.

Researchers at Germany's Institute for Solar Energy Research Hamelin (ISFH) have developed two different techniques to integrate stone veneers in conventional solar modules to make ...

At Onyx Solar, we specialize in developing customizable photovoltaic solutions that cater to the unique needs of every project, from facades to roofs, ensuring sustainability, energy efficiency, and aesthetic ...

Crafted with heat-treated safety glass, our photovoltaic glass provides the same thermal and sound insulation as traditional options, flooding spaces with natural light. Perfect for facades, curtain walls, ...

Solstex is a building-integrated solar panel facade system that produces clean energy and acts as a long-lasting exterior cladding. Solstex is a premium example of solar BIPV technology that combines ...

Photovoltaic solar tiles are a new technology option for solar energy systems because they have several advantages over conventional solar panels. Because of their resilience and ...

Discover the best facade veneer panels: sandwich, composite, wood and more. Learn how to choose and install to transform your exterior.
