What is an IP67 enclosure?

IP67 enclosures are among the most protective types of electrical enclosures available today, with the ability to act as either indoor or outdoor enclosures, thanks to their durable weatherproof gaskets. Specifying an IP67 enclosure may be the right choice for you if:

What are the benefits of IP67 & IP66 enclosures?

They also provide complete protection against: IP67 enclosures fully protect electronics and electrical components against dust. They are also effective at protecting against water damage during a temporary 30-minute immersion at a depth of between 15cm and 1m. Our IP66 enclosures offer protection as high as that of level 4 custom NEMA enclosures.

Are polycase enclosures IP67 rated?

Polycase's IP67 rated enclosures and boxes provide protection for your electronics in indoor and outdoor applications. Meeting IP67 requirements ensures waterproof enclosures provide security for housing internal components in wet environments.

What is the difference between IP67 and IP66 enclosures?

IP67 enclosures fully protect electronics and electrical components against dust. They are also effective at protecting against water damage during a temporary 30-minute immersion at a depth of between 15cm and 1m. Our IP66 enclosures offer protection as high as that of level 4 custom NEMA enclosures. They provide a complete shield against:
