We design and build container generator units, shipping container power units, and modular generator housing that meet the highest standards of safety and performance.

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

The answer often lies in container rooms for generator sets - modular, cost-effective, and rapidly deployable solutions. This article explores their design principles, industry applications, and why ...

Falcon Structures precisely modified five 40-foot shipping containers into custom generator enclosures for Taylor Power Systems" large industrial generators.

Our containerized generator enclosures are known for their supreme quality, appearance, and durability. We custom build to our customers specifications up to 3MW.

At the beginning of the Tier 4 transition, our engineering team had the opportunity to work with different customers in different markets to design and develop a line of high-power Tier 4 Final containerized ...

As a leading power generation container room manufacturer, we've seen firsthand how customized solutions are becoming the backbone. Imagine a Swiss Army knife - compact, adaptable, and ready ...

Container type power generation equipment is very common in power station projects. Generator set containers can be divided into two categories: integrated containers with bases and ...

From configuration to installation to operation and maintenance, we work with you for the life of your power system.

Unlike traditional enclosures, our containerized generator enclosures offer enhanced mobility, allowing you to

Power generation container room design

easily transport and relocate your generator equipment. They are also highly customizable, ...
