Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

What are the benefits of outdoor cabinets?

**Durability:** Outdoor cabinets are resistant to harsh weather conditions. These cabinets protect equipment against factors such as rain, snow, wind, dust, and extreme temperatures. **Physical Security:** Outdoor cabinets offer strong physical security to protect equipment from theft, vandalism, or unauthorized access.

What is an AP utility cabinet?

The AP Utility cabinet ensures wide-ranging indoor and outdoor functionality, including power distribution, fiber termination, telecommunications, security and surveillance, cellular backhaul, industrial controls, and CATV. Ready to protect your network infrastructure with American-made quality?

Learn about their features, including weatherproofing, temperature control, and space optimization, making them ideal for outdoor installations in remote locations and urban settings.

Discover high-quality telecommunication cabinets with IP55/IP65 protection, modular design, and active cooling. Find reliable suppliers, compare specs, and click to explore top-rated ...

Westell offers secure, weather-tight outdoor network enclosures to protect electronic equipment for outdoor telecom networks.
