Nafion PEM, 30-100 mm, for H-type cells & MEAs. Enables efficient proton conduction; pretreat before use. 10% off 1st order, free US shipping, 24/7 service.

Discover proton exchange membrane electrolyzers with CE-certified PEM fuel cell solutions for energy storage and hydrogen generation.

Tion5-W PFSA Membrane Tion5-W is PFSA (perfluorosulfonic acid) resin based cation exchange membrane with a thickness of ~1.. \$38.00

Nafion Proton Exchange Membrane is generally immediately available in most volumes.

PFSA S30-R ePTFE Reinforced Proton Exchange Membrane has a thickness of 30 microns (+/- 2 microns for the thickness variation) and ideally suited for PEM fuel cell stacks that would yield very ...

Whether you have a need for fuel cell or electrolyzer membranes or for any other electrochemical application, you will find the largest variety here and procure these from a single source.

Proton Exchange Membranes are widely used for PEM fuel cells and water electrolyzers. They perform as a separator and solid electrolytes in a variety of ...

On AliExpress, you can use the four options of Best Match, Order, Newest and Price to search, and you can choose your ideal price for searching proton exchange membrane.

Fumasep FAB-PK-130 Fumasep FAB-PK-130 is a PK reinforced Anion Exchange Membrane (AEM) with high proton blocking capabi.. \$33.00

In order for a PEM fuel cell to operate, a Proton Exchange Membrane is needed that will carry the hydrogen ions, proton, from the anode to the cathode without passing the electrons that were ...

Proton exchange membrane price

PFSA D125-U Proton Exchange Membrane (PEM) is used to separate the anode and cathode compartment of PEM water electrolyzers because of its relatively thick nature (~125 microns or 5 ...

Comparing proton exchange membrane prices. You can easily wholesale quality proton exchange membrane at wholesale prices on Made-in-China .
