---

Founded in 2001 in Wuhan, China, Rixin Technology operates as a global solar power provider, as well as one of the China's leading crystalline silicon PV modules manufacturer, has been committed to ...

It is a photovoltaic power generation facility that is constructed and operated at or near the user's site, and is characterized by self-consumption on the user's side, excess power being connected to the ...

Rely on modern standard product line and reliable material quality, 25 years power warranty is promised for Rixin solar panels. After 17 years development, Rixin have finished more than 1500 PV power ...

Combined with it's 0.5% annual power degradation, higher lifetime energy production, and industry-leading 30-year linear power warranty, Rixin Panel lets you recoup your ROI much faster than ...

Our innovative balcony photovoltaic systems are the perfect solution for urban living! ? Why Choose Our Balcony Photovoltaic Systems? Space-Efficient: Perfect for apartments and city dwellers. Easy ...

After 17 years development, Rixin have finished more than 1500 PV power generation projects in China, and built business relationship with the clients all over the world.

Rixin Technology specializes in the development of high efficiency crystalline solar technical roadmap and it has become great PV companies in terms of its scale and the leading expertise in China.

Designed to reduce micro-cracking, UV ageing, degradation and corrosion, Rixin dual glass series is ideal for uncompromising weather conditions. Want this product?

3MW photovoltaic application project of Dongbei compressor factory Rixin Technology and Dongbei New Energy have joined forces to build a 3MW photovoltaic power generation system using the idle ...
