The recently operational Bisha battery energy storage project features 488 advanced battery containers with a storage capacity of 500 MW for a duration of four hours.

The conference features 3 dynamic tracks, showcasing the latest insights and innovations across the renewable energy sector. Join keynote presentations, practical case studies, country spotlights, ...

HiTHIUM's advanced lithium iron phosphate technology will be used, with large-format cells housed in robust, climate-resistant containers. Both projects are scheduled for completion by ...

Growing demand for distributed energy -- In addition to large-scale projects, Saudi Arabia is encouraging rooftop solar and C& I solar battery storage systems under 20 MW, driving ...

Riyadh energy storage projects are rewriting the rules of sustainable power. From mega-battery installations to sand-resistant solar farms, Saudi Arabia's capital isn't just surviving the heat - ...

With 1.5 GW of solar capacity, 600 MW of wind power, and 400 MW/1,200 MWh of battery storage, this megaproject aims to power 750,000 homes while cutting CO2 emissions by 2.8 million tons annually. ...

Portable energy storage products are a safe, portable, stable, and environmentally friendly small energy storage system that uses built-in high energy density lithium-ion batteries to provide a stable AC and ...

SunRise Arabia 2026 signals a new clean energy frontier The SunRise Arabia Clean Energy Conference 2026 is set for April 22, 2026 in Riyadh, bringing together policymakers, investors, ...

We specialize in solar inverters, residential off-grid power generation systems, industrial and commercial energy storage solutions, photovoltaic projects, photovoltaic products, solar industry solutions, ...
