Iron Flow Battery and Battery Energy Storage solutions for Net Zero Energy, Commercial, Industrial, Smart Grid and Utility applications

The long-duration energy storage (LDES) provider is the only manufacturer in the world of the flow battery, which uses an iron and saltwater-based electrolyte. Other makers' flow batteries use ...

Mobius Flow Batteries consists of a positive and negative liquid electrolyte stored in two independent tanks. When charging, a chemical imbalance is created between the two electrolytes by forcing ...

The company's iron flow battery technology has been installed across a wide range of use cases and sectors, from commercial and industrial applications to utility-scale generation and ...
