An initiative encouraging more people to adopt electric vehicles (EVs) in Singapore will continue for two more years to end-2025, but with lower rebates in the coming year.

We aim to deploy 60,000 EV charging points across Singapore by 2030, in tandem with EV adoption. All HDB residents will have convenient access to EV chargers. As of December 2025, more than 90% of ...

Transitioning to EVs All new car registrations will have to be of cleaner-energy models from 2030. Cleaner-energy models include electric, hybrid or hydrogen fuel cell cars. We will also stop new ...

SINGAPORE - Two schemes to encourage the adoption of electric vehicles (EVs) have been extended and revised to provide lower rebates.

Singapore's push for electric vehicle (EV) adoption is heavily reliant on establishing solid policy frameworks. It's not just about wanting EVs on the road; it's about creating an environment ...

SINGAPORE - The adoption rate of electric vehicles (EVs) in Singapore is gathering pace, with 43 per cent of new car registrations in the first nine months of 2025 being that of...

The adoption of electric vehicles in Singapore is supported by the Singapore government via the Singapore Green Plan 2030 to have new car models required to run on cleaner energy sources and ...

According to the Land Transport Authority (LTA), electric vehicles (EVs) made up around 53% of all new car registrations in October 2025.

To support Singapore's vision of 100% cleaner-energy vehicles by 2040 [1], the Land Transport Authority (LTA) and the National Environment Agency (NEA) will extend the Vehicular ...
