Sinovel is the first Chinese turbine manufacturer to successfully research, develop and mass produce the global mainstream 3MW series of onshore, offshore and intertidal wind turbines with independent ...

Sinovel is the first Chinese business to independently develop a line of 5MW and 6MW wind turbines. With a total installed generating capacity of 17,087 MW as of 2021, Sinovel was ...

Sinovel Northwest Base resumed production with new technology, new product and new service Sinovel Cooperates With Mita-Teknik to Co-Develop Innovative Wind Turbine Control Systems

On February 27, 2010, Sinovel successfully completed the installation of 34 units of 3MW offshore wind turbines for the 100MW Shanghai Donghai Bridge Offshore Wind Farm project.

Over the years, it has attracted many domestic and foreign wind power enterprises to build and develop here, and formed industrial clusters ...

Sinovel was founded by Han Junliang who later became the first wind power billionaire after the IPO of the company in 2011. Initially capital of 100 million yuan was provided by a Chinese state-owned company, Dalian Heavy Mechanical & Electrical Equipment Engineering. Donghai Bridge Wind Farm, the first offshore wind farm in China, began operation in July 2010 using 34 3 MW Sinovel turbines.

Donghai Bridge Wind Farm, the first offshore wind farm in China, began operation in July 2010 using 34 3 MW Sinovel turbines. In December 2010, the Massachusetts Water Resources Authority ordered a ...

With the rapid advancement in wind technology, reliable product quality and more than 95% feasibility rates, wind power has become a safe and reliable energy source.

Over the years, it has attracted many domestic and foreign wind power enterprises to build and develop here, and formed industrial clusters around "wind" resources.

Sinovel Wind Power builds power plant

Meta description: Explore how Sinovel Wind Power Plant is transforming wind energy with cutting-edge technology and sustainable solutions. Discover key innovations driving the renewable revolution.

The Company's R& D Center is responsible for developing Sinovel's 1.5MW, 3MW, 5MW and 6MW series of grid-compatible wind turbines, which can be adapted to a variety of wind and environmental ...
