QUANTUM is a China-based global supplier of PVB, PDLC, TPU, EVA and other functional plastic thin films. It also distributes ultra-clear patterned solar glass as well as solar PV modules globally.

Our CLEAR Solar Photovoltaic Window Glass can be combined in layers with our other high tech glass technologies for the ultimate in customization! Call or email us NOW and be among the first to ...

Manufacturer of standard and custom electrically heated laminated glass. Absorbs or reflect UV light through windows and are weather, vandalism, physical and ballistic resistant. Suitable for building, ...

Customized ITO / FTO conductive glass plays a crucial role in scientific experiments, offering excellent conductivity, transparency, and stability. Ideal for photovoltaics, sensors, and analytical instruments.

As the demand for transparent conductive materials surges across industries like consumer electronics, automotive, and solar energy, Ito Conductive Glass stands out as a key enabler.

Solaronix is active in the area of renewable energy and has a leading position in the development of new photovoltaic cells imitating natural photosynthesis. In particular, the dye sensitized nanocrystalline ...

The NSG Group offers a range of specialised glass and coated glass products used in all of the leading solar energy technologies, including thin film photovoltaics, crystalline silicon photovoltaics, ...

Our premium conductive glass is engineered to boost performance across various applications, including touchscreens and solar panels. Committed to durability and efficiency, our products deliver ...

Indium Tin Oxide (ITO) Conductive Glass is a transparent conductive substrate widely used in optoelectronic applications. It offers high optical transparency, excellent electrical conductivity, and ...

You are looking for low-iron glass for photovoltaics, PV-modules, solar thermal or other special applications?

Solar Conductive Glass Supply Company

We comply with all your requirements for ultra-transparent, antireflective-coated and ...
