The transition to clean energy is happening more quickly than anyone predicted when Victoria's target of 50% renewables by 2030 was set. Renewable power is now more reliable than ever and is cheaper, ...

Check your eligibility for Solar Victoria programs and learn how to apply. Solar panel rebates plus the option of an interest-free loan are available for eligible Victorian homes. Hot water rebates of up to ...

Helping Victorians save on their energy bills, tackle climate change and build a cleaner, renewable future. Solar Victoria's exists to help households access clean, affordable, reliable energy, now and ...

Solar Victoria Helping Victorians save on their energy bills, tackle climate change and build a cleaner, renewable future.

Victoria's solar energy sector is primed for investment, with solar energy to play a critical role in achieving the state's renewable energy targets. Victoria has excellent solar irradiation levels across ...

Victoria's sunlight is ideal for producing energy and is a key part of our state's move to clean, renewable energy.

Cheaper, Cleaner, Renewable: Our Plan for Victoria's Electricity Future outlines the actions we are taking to ensure our state achieves its renewable energy targets.

Solar Victoria operates one of the largest sustainability and renewable energy programs in the country, accelerating uptake of solar and electrification in Victorian homes.

Renewable energy is a key contributor to Victoria's energy transition, achieving net zero emissions by 2045 and minimising the impacts of climate change on humans and the environment.

Rebates that support Victorians to take control of their energy bills, tackle climate change and build a cleaner,

renewable future. The Solar Homes Program offers eligible Victorian households ...

Clean Energy on The RiseIn Victoria: Grid Prices and ReliabilityBatteries Charging AheadRooftop SolarTransition to 100% Clean EnergyIn 2019-20, renewable energy generated almost 25% of electricity in Victoria, and we're already on track to beat the target of 50% renewable energy by 2030. But to do our bit in meeting the Paris Agreement to limit global temperature rises to 1.5 degrees, Victoria must aim to cut emissions from the energy sector much faster, with a goal to achieve ...See more on environmentvictoria
