What is a solar power bank?

The SOARISE Wireless Solar Power Bank delivers exceptional versatility for outdoor enthusiasts who need reliable power across multiple devices simultaneously. You'll get 25000mAh capacity that charges a 3000mAh phone 6-7 times or tablets 3-4 times.

Should you use a portable solar power bank?

A dead device is deadweight when an electrical outlet is nowhere in sight, which is when a portable solar power bank comes in handy. It can keep your gadgets powered up when you're enjoying life off-grid -- perfect for camping, backpacking, traveling, or emergencies. We've tested over 100 different portable solar chargers since 2013.

What are the best solar power banks?

I've tested the top solar power banks, and standout models include the SOARISE 25000mAh with 15W wireless charging and four solar panels for simultaneous device charging, plus the massive 50000mAh Portable Charger featuring PD30W fast charging.

How do you charge a solar power bank?

Most solar power banks have two power options - wall charging and solar charging. Because power banks have smaller solar panels, your best bet for a quick-charge is to plug it in and use the sun rays to keep things kicking. There is no perfect or exact science when it comes to testing out travel and outdoor gear.

Anker's solar panel power bank is your ultimate on-the-go power solution. Harness the sun's energy with high-efficiency solar panels, and charge your devices anytime, anywhere.

You'll find our picks for the best solar power banks suit a range of scenarios, all of which can be charged via both solar panels or other sources like a wall socket or USB.
