A viral video from a Tennessee-based off-grid couple is drawing attention for its rare honesty about what it's actually like to live with solar power long-term.

Through conversations with friends and neighbors, I've come to understand why some regret going solar and how to avoid making the same mistakes. Let's delve into the reasons why some homeowners ...

I like that our panels charge the battery and the lines we have connected continue to get power even when the line is shut off due to an outage. We didn't have any issues with the tax credits either.

Homeowners who delayed transitioning to solar often find themselves grappling with regret, realizing that they could have shielded themselves from these escalating expenses.

One homeowner shared some of his solar power regrets, trying to help others avoid making the same mistakes when installing panels.

Discover a homeowner's biggest regrets about rooftop solar. Learn from his experience and make informed decisions. Don't miss out!

Discover why some homeowners regret installing solar panels, from hidden costs and maintenance issues to efficiency concerns and financial drawbacks.

It seems I am getting no credit for the kwh's produced, and that the panels don't seem to produce as much as the company said they would. The power company (Duke Energy) makes no sense of what ...

Solar panels are all the rage for homeowners across the world. But before you make the commitment, here are 7 reasons you may regret buying them.
