BTRY is a Swiss battery manufacturer that specializes in innovative energy storage solutions, including a high-performance solid-state battery that can charge in just one minute.

We have the only exclusive license to date for mass production of these solid-state batteries and an additional license to market industrial storage systems in Switzerland and Germany. With us, the ...

UltraBattery[®] is a hybrid technology between a conventional Valve Regulated Lead Acid (VRLA) battery and ultra-capacitor technology. The cell manufacturer claims increased performance (more energy ...

With state-of-the-art technology, standard components and our own Energy Management System (EMS) developed in Switzerland, we guarantee the highest levels of efficiency and flexibility. Plug & Play, ...

Swissgrid sees battery storage as a key technology for the energy transition. It not only facilitates the integration of renewable energies, but also increases the flexibility of the entire ...

BTRY is a start-up based in Dübendorf, Switzerland, and a spin-off of EMPA and ETH. From the lab to the market - at BTRY, we are developing the industry's first energy-dense solid-state battery made ...

The company is based in Switzerland and operates in the energy storage sector. With its vision to change what is possible, Swiss Battery is positioned as a key player in the transition toward ...

Some of the notable battery companies in Switzerland include Leclanché, a leading provider of lithium-ion batteries for the transportation and energy storage industries, and Blackstone Resources, a ...

LiTHiUM System, formerly LiTHiUM Storage GmbH, headquartered in Illnau, Switzerland, has been supplying customers throughout Europe with high-quality lithium iron phosphate (LiFePO₄) batteries ...

Swiss standard energy storage battery manufacturer

The Swiss energy storage lithium battery industry isn't just selling products--it's crafting a blueprint for sustainable tech. From chocolate factories to robot-staffed labs, they're proving that ...
