EPCG, a utility and DNO in the Southeast European country of Montenegro, is looking to add 300MWh of BESS to its grid.

Montenegro's state-owned power company, Elektroprivreda Crne Gore (EPCG), is pioneering the installation of battery energy storage systems (BESS) to enhance energy system ...

Looking back, the implementation of EPCG's battery energy storage systems stood as a landmark achievement in Montenegro's quest for a modernized and sustainable energy grid.

After the Board of Directors of EPCG adopted a project task proposal and initiated a procedure for the preparation of a feasibility study and project design, the first phase of the ...

CWP Europe plans to implement an investment worth over EUR1.1 billion, which includes the construction of the 400 MW Montechevo Solar Power Plant and a battery energy storage system in ...

Montenegro is making waves in renewable energy with its first distributed energy storage project. This innovative solution addresses grid stability, supports renewable integration, and paves the way for ...

Montenegro invests EUR48M in 240 MWh battery energy storage systems to enhance grid stability and accelerate its renewable energy transition.

EPCG, Montenegro's largest electricity provider, is investing in two four-hour BESS to strengthen grid resilience and balance supply and demand. Each system will have a power output of ...

This project aligns with global trends in sustainable energy development and reducing carbon emissions. By integrating battery storage systems, EPCG aims to reduce electricity ...
