On April 9, CATL released the world's first 5-year zero-degradation energy storage system that can be mass-produced - CATL Tianheng.

As if Tesla's Megapack business didn't have enough competition in China, it now has to face one of the world's biggest energy storage system by the largest battery maker, CATL. Called...

Chinese battery giant Contemporary Amperex Technology Co Ltd (CATL, SHE: 300750) has launched its new energy storage system Tianheng, or Tener, to further tap the energy storage ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry benchmark with ...

CATL's launch of Tianheng represents not only an impressive leap forward in energy storage technology but also signals a trend towards longer-lasting, safer, and more cost-efficient ...

The Tianheng energy storage system now boasts the ability to maintain its capacity and power without any degradation for the first five years, and it is ready for mass production and delivery.

On April 9th, CATL released its new energy storage product - the 'Tianheng' energy storage system, which is the world's first energy storage system that can achieve 5 years of zero ...

The Tianheng system can be mass-produced and placed in a 20-foot-equivalent-unit container, the Ningde-headquartered battery giant announced yesterday. The cell has an energy ...

On April 9, CATL unveiled TENER, the world's first mass-producible energy storage system with zero degradation in the first five years of use in Beijing, China.

Tianheng containerized energy storage power station

Tianheng is a standard 20-foot containerized energy storage system equipped with CATL's energy storage-specific L-series long-life lithium iron phosphate cells. The milestone of 5 ...
