The Tigo EI Inverter is the centerpiece of the Tigo Energy Intelligence (EI) solution. It orchestrates energy production and the consumption (when coupled with the Tigo EI Battery).

Tigo GO Inverter is the centerpiece of the Tigo GO Residential solution. It orchestrates energy production and the consumption (when coupled with the Tigo GO Battery) and seamlessly pairs with ...

The Tigo EI Inverter is the centerpiece of the Tigo Energy Intelligence (EI) solution. It orchestrates energy production and consumption (when coupled with the Tigo EI Battery).

Find datasheets, case studies, technical guides, certifications of compliance, compatibility letters and more. Explore Tigo Energy.

Grid connected inverters (GCI) are commonly used in applications such as photovoltaic inverters to generate a regulated AC current to feed into the grid. The control design of this type of inverter may ...

EI Inverter converts the DC power from your solar array into AC power for home consumption or export to the grid. It is the centerpiece of the Tigo Energy Intelligence (EI) solution.

Each part of the Tigo residential solution - including inverters, batteries, optimizers, software, and more - has been designed to maximize performance for homeowners while enabling a flexible, intuitive ...

All Tigo EI Inverter models (3.8, 7.6, and 11.4 kW) are compatible with 208V and 240V systems. Although the EI Inverters are single-phase (split-phase, 120/240V), they can be used on a three ...

Tigo GO Inverter A battery storage ready hybrid inverter that can be AC or DC coupled for new or retrofit solar installations downloads
