Another of the outstanding features of the SLC CUBE3+ A is its high efficiency, which reaches truly exceptional levels from 50% load onwards. In ECO mode, its efficiency exceeds 98% at full load.

The UPS from SLC CUBE3+series is a double conversion system, AC/DC, DC/AC with sinewave output, which provides a safety protection in extreme conditions of power supply (voltage and frequency ...

Discover the best uninterruptible power supplies to protect your data center infrastructure. Vertiv's three-phase UPS's include ITA2 (TM), EXS (TM), EXL (TM) S1, Trinerger (TM) Cube and NXL (TM).

Replacement battery cartridges (RBC) for Back-UPS, Smart-UPS and Smart-UPS on-line. Power protection and management solutions from home to data center to industrial environments.

With its high power density cores, Liebert® Trinerger™ Cube is the only static UPS today able to reach up to 3.4 MW in a single unit, thus allowing extraordinary capacity levels.

This provides a perfect sinusoidal supply voltage for high crest factor critical loads with a resultant improvement in functioning and greater longevity. Fully flexible and adaptable to any work environment.

Ready to evolve with growing business demands, it offers the highest level of power availability, reduced TCO, and minimum energy consumption. The compact 400kVA core allows Liebert® Trinerger(TM) ...

The Vertiv Liebert Trinerger Cube UPS is an advanced uninterruptible power supply system designed to provide unparalleled power protection and efficiency for large-scale, mission-critical applications.
