What is the best solar generator of the year?

With last year's release of the Elite 200 V2, the company surged to the front with what we named the best solar generator of the year. Now they've released the much-anticipated Elite 100 V2, and after thorough testing, I can report that it delivers everything we loved about its bigger brother in an even more portable package.

Why should you buy the Elite 100 V2 portable power station?

From travel-ready to power-hungry, the Elite 100 V2 portable power station is here to cover your needs with impressive output, blazing-fast recharges, efficient solar input, portable design and smart app control. Whether you're off-grid, off-road, or on-call during an outage, it handles it all without a sweat. Power in Hand, Wherever You Head

Is the Elite 100 V2 a good power bank?

The thousand-watt-hour capacity of the Elite 100 V2 makes it the perfect size if you're looking for something larger than a pocket-sized power bank, but still want something fairly portable that isn't heavy to lift and won't take up much space.

How much power does the Elite 100 V2 have?

The Elite 100 V2 packs up to 2,700Wh of reliable power in a travel-sized build--ready to energize most demanding devices with ease all along your way. Cook dinner, light up the night, or stream movies under the stars--no campsite outlet required. Keep essentials running--fridge, lights, internet--when the power goes out.

Thanks to its built-in MPPT controller, the Elite 100 V2 charges fast via solar -- ideal for outdoor adventures and off-grid life. With TurboBoost(TM) tech and 1,200W AC input, it gets an 80% charge in ...
