Pope Francis, a vocal campaigner for action against climate change and on environmental protection, on Wednesday ordered the construction of a solar farm to cover the energy ...

The Vatican is set to become solar powered as Pope Francis has ordered the construction of an agrivoltaic plant at its extraterritorial site at Santa Maria di Galeria on the edge of ...

Italy agreed Thursday to a Vatican plan to turn a 430-hectare field north of Rome, once the source of controversy between the two, into a vast solar farm. The Holy See hopes it will generate...

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside ...

Vatican officials have estimated it will cost under 100 million euros (\$114 million) to develop the solar farm, and that once it is approved by the Italian parliament, the contracts to do the...

In line with the principles of the encyclical "Laudato Si'" and a United Nations agreement on climate change, Pope Francis is making the Vatican "greener." Pope Francis has ordered the ...

This tradition got a recent boost. The late Pope Francis' goal of powering the Vatican by 100% solar energy is happening now as Vatican City becomes the first fully powered solar state.

VATICAN CITY (CNS) -- Pope Francis appointed two special commissioners to start work on building an agrivoltaic system on a Vatican property outside of Rome that could supply the whole of Vatican ...

In a quiet corner of the Roman countryside, an ambitious project is taking shape--one that seeks not only to power the Vatican City entirely through renewable energy, but also to embody the...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast

Vatican givaudan solar financing

solar farm that will generate enough electricity to meet the needs of Vatican City.
