At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid ...

A complete solar-battery-generator power plant pre-built into a shipping container. We integrate the inverter/chargers, lithium batteries, DC charge controllers, switchgear, ventilation/air-conditioning, ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Our core team brings 15+ years in renewables and container manufacturing. From system design to factory testing, we size and deliver SolaraBox Mobile Solar Containers that meet site needs reliably ...

We specialize in large-scale energy storage systems, mobile power stations, distributed generation, microgrids, containerized energy storage, photovoltaic projects, photovoltaic products, solar industry ...

At SCS Australia, we design and deliver containerised energy storage systems that provide safe, efficient, and scalable power solutions for industries, businesses, and communities.

LZY Energy provides efficient and reliable energy management solutions for I& C users through leading technology and careful design. We are committed to promoting energy transformation and ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions.
