Our solar PV systems and energy storage products are engineered for reliability, safety, and efficient deployment. All systems include comprehensive monitoring and control systems with remote ...

OffGridBox technology caters to households and institutional buildings such as health clinics and schools, it powers productive use, and can be installed in humanitarian settings, like refugee camps ...

LZY Mobile Solar Container System - The rapid-deployment solar solution with 20-200kWp foldable PV panels and 100-500kWh battery storage. Set up in under 3 hours for off-grid areas, construction sites ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail system and no ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...

Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air ...

The durable container design is completely waterproof, protects you and your equipment from the elements and any potential security threats. With NO assembly required you can have your own ...

Built for longevity, the SolaraBox solar container is built to withstand harsh environmental conditions and ensure a reliable power supply. The SolaraBox mobile solar container is a portable solar power plant ...

Waterproof photovoltaic container for community use

A Mobile Solar Container is a self-contained solar power unit housed within a transportable container. Designed for mobility, it offers rapid deployment of renewable energy solutions in remote or ...
