Police recovered more than \$70,000 worth of solar panels stolen from a private school in El Cerrito, Calif., according to the Mercury News. Police learned the location of most of the panels after ...

In this mind-blowing documentary, we'll uncover how a small-town dreamer turned con man used broken solar generators, fake lease agreements, and government tax credits to scam America's ...

Ridlinghafer, or his employees, signed fraudulent contracts with victim homeowners for the purchase and installation of solar power electrical systems on the victims' homes. The victim credit unions then ...

Solar panel theft is on the rise - discover why it's happening, the real cost to operators, and how security measures can help protect valuable infrastructure.

Unlike many other cases of money laundering and billion-dollar schemes, DC Solar wasn't born to be an intricate money-stealing company. It was founded by Jeffrey Carpoﬀ in 2008, ...

The owner of a California-based solar energy company has been sentenced to 30 years in federal prison for bilking investors in a billion-dollar Ponzi scheme, prosecutors say.

The owner of a California-based solar energy company has been ...

The co-owner of a California-based solar company was sentenced to 30 years in prison for running a \$1 billion Ponzi scheme that attracted big-name investors, among them Warren Buffett's ...

In reality, at least half of the approximately 17,000 mobile solar generators claimed to have been manufactured by DC Solar did not exist. "Jeff Carpoﬀ orchestrated the largest criminal fraud ...

A contraption he'd rigged up in his driveway--a car trailer decked with solar panels and a heavy battery--got the attention of people with real money. Carpoﬀ could scarcely have imagined it.

Who stole the solar panels

A solar panel installation contractor may face a jury trial in March for stealing more than \$690,000 from two credit unions and at least 25 Arizona homeowners, according to federal court...
